

## Innovation in Action

At Sunview Patio Doors Ltd., we believe the only way to stay ahead of the market in today's fast-paced world is through constant innovation. To help us keep raising the bar even higher, Sunview has developed a culture of continuous improvement in our people, product design, and production processes. As a leading patio door manufacturer in North America, we are singularly focused on this guiding principle to run our business. The following examples highlight some of the many innovations we have recently implemented.

### Advanced Test-Wall System

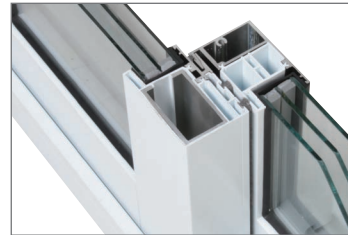

State-of-the-art test wall system to simulate any weather condition. This is used for quality control and product development.

### Custom-Engineered Corner Keys

Custom manufactured corner keys add long-lasting strength and durability to our doors. Making sure they stand the test of time.

### Hybrid Door Design

Our 2900 Hybrid Aluminum/Vinyl door is the first of a kind. The interior warmth of vinyl with the exterior strength of aluminum.

### UV-ToughCoat Paint System

This revolutionary coating system offers an incredible range of colours and a finish that's 7X harder than conventional methods.

### Folding Glass Wall Systems

The "Muskoka" adds exciting new dimensions to residential and commercial properties, plus a variety of applications for indoor spaces.

### Robotic Glass-Handling Systems

Suction cup robotics have resulted in a sharp reduction in downtime, higher throughput, and a safer workplace.

## Magnetic Levitation Door Development

In partnership with Savio Thesan USA, Sunview is currently working on an exciting new line of aluminum and vinyl sliding doors leveraging magnetic levitation instead of traditional roller systems. We believe this new frontier in door design will have great market potential for a wide-range of commercial applications. Stay tuned for more to come!

## About Sunview

Since its inception nearly 40 years ago, Sunview Patio Doors has made its mark in the industry as a progressive and customer-focused manufacturing company. We continually strive to be the best at what we do, and our long history has taught us that producing high-quality products with competitive pricing is a winning strategy. We also understand that taking good care of our customers is the driving force in our continued success.

Owner /President

Advance Roofing,  
Windows, Siding & Decks

*"I have been purchasing and installing the Buckingham and Buckingham Eco patio doors for over 7 years and have found the performance to be nothing but outstanding. Excellent sight lines and an extremely rigid mainframe coupled with ease of operation make this product a winner for both me and my clients."*

**Mike Greco**  
President

Vinylguard Window  
& Door Systems Ltd.

*"We carry the entire line of Sunview Patio Doors and have worked with them for more than 10 years. I have always been impressed with the focus on innovation at Sunview and our customers love the quality and value of their products. I also find them to be great to work with, and that's important in this business."*
